CONTENTS

VOLUME 85 (6A) December 23, 1988

The American Journal of Medicine®

WORKSHOP ON THE IMMUNOGENETICS OF THE RHEUMATIC DISEASES

1
Introduction
Benjamin D. Schwartz, Frank C. Arnett, Muhammad Asim Khan, Gerald T. Nepom, Peter Stastny, Lawrence E. Shulman

2
Function and Polymorphism of Human Leukocyte Antigen-A,B,C Molecules
Peter Parham

6
Diversity and Regulation of Expression of Human Leukocyte Antigen Class II Molecules
Benjamin D. Schwartz

9
T Cell Receptors
Nicolette Caccia, Tak W. Mak

12
Structural and Genetic Features of Human Leukocytic Antigen Class II Elements Associated with Rheumatoid Arthritis
Gerald T. Nepom

14
Class II Human Leukocyte Antigen Genes and T Cell Receptor Polymorphisms in Patients with Rheumatoid Arthritis
Xiaojiang Gao, Edward J. Ball, Lori Dombrausky, Nancy J. Olsen, Theodore Pincus, Muhammad Asim Khan, Frederick Wolfe, Peter Stastny

17
Genetic Susceptibility to Rheumatoid Arthritis and Human Leukocyte Antigen Class II Polymorphism: The Role of Shared Conformational Determinants
Peter K. Gregersen, Jack Silver, Robert J. Winchester

20
A New Look at the Shared Epitope Hypothesis
Penelope A. Morel, Henry A. Erlich, C. Garrison Fathman

23
Molecular Genetic Studies of Rheumatoid Arthritis
D. Olga McDaniel, Ronald T. Acton, Bruce O. Barger, William J. Koopman, Graciela S. Alarcón

26
Juvenile Rheumatoid Arthritis, Human Leukocyte Antigen, and Other Immunoglobulin Supergene Family Polymorphisms
Walter P. Maksymowych, Catherine Van Kerckhove, David N. Glass

29
Genetic Contributions to Lupus-Like Disease in NZB/NZW Mice
Brian L. Kotzin, Ed Palmer

32
T Cell Up-Regulation of B Cells via Their Idiotypes Contributing to the Development of Systemic Lupus Erythematosus: A Hypothesis
Bevra H. Hahn, Dale Ando, Fanny M. Ebling, Niver Panosian-Sahakian, Betty Tsao, Kenneth C. Kalunian

35
Immune Response to the RNA Protein Particles in Systemic Lupus Erythematosus: A Distinctive Dichotomy
Morris Reichlin, John B. Harley

38
Major Histocompatibility Complex Genes in Systemic Lupus Erythematosus, Sjögren's Syndrome, and Polymyositis
Frank C. Arnett, Rose Goldstein, Madeleine Duvic, John D. Reveille

42
Major Histocompatibility Complex Associations with Systemic Lupus Erythematosus
Zdenka Fronek, Luika A. Timmerman, Chester A. Alper, Bevra H. Hahn, Kenneth Kalunian, B. Matija Peterlin, Hugh O. McDevitt

45
Complement Deficiency: Predisposing Factor to Autoimmune Syndromes
John P. Atkinson

48
Restriction Fragment Length Polymorphism Analysis in Ankylosing Spondylitis
John D. Reveille, William J. Koopman, Bruce O. Barger, Ronald T. Acton, D. Olga McDaniel

51
Molecular Mimicry between Human Leukocyte Antigen B27 and *Klebsiella*: Consequences for Spondyloarthropathies
Peter L. Schwimmbeck, Michael B.A. Oldstone

54
Cross-Reacting Bacterial Determinants in Ankylosing Spondylitis
John S. Sullivan, John K. Prendergast, Andrew F. Geczy, John P. Edmonds, Louis E. McGuigan, Carmel M. Edwards

56
Bacterial Epitopes Involved in the Induction of Reactive Arthritis
Heather Stieglitz, Susan Fosmire, Peter E. Lipsky

59
Studies of HLA-B27-Associated Disease
Joel D. Taurog, Jaime P. Durand, Fouad A.K. El-Zaatari, Robert E. Hammer

61
Suggestions for Future Research Directions Resulting from This Workshop
Benjamin D. Schwartz, Frank C. Arnett, Muhammad Asim Khan, Gerald T. Nepom, Peter Stastny, Lawrence E. Shulman

VOLUME 86 (1A) January 16, 1989

ADVANCED CARDIOVASCULAR THERAPY: REDEFINING CLINICAL GOALS—THERAPY AND PROTECTION ACROSS THE ISCHEMIC SPECTRUM

1
Chronic Stable Angina Monotherapy: Nifedipine versus Propranolol
Michael B. Higginbotham, Kenneth G. Morris, R. Edward Coleman, Frederick R. Cobb

6
Total Ischemic Burden: Implications for Prognosis and Therapy
Peter F. Cohn

9
Silent Myocardial Ischemia: Mechanisms and Rationale for Therapy
Glen J. Kowalchuk, Richard W. Nesto

14
Altered Myocardial States: The Stunned and Hibernating Myocardium
Robert A. Kloner, Karin Przyklenk, Bharat Patel

23
High-Dose Monotherapy and Combination Therapy with Calcium Channel Blockers for Angina: A Comprehensive Review of the Literature
Lawrence P. Temkin

28
Once-Daily Therapy for Angina Pectoris with Nifedipine Gastrointestinal Therapeutic System: Dosing and Clinical Efficacy
George W. Vetrovec

VOLUME 86 (1B) JANUARY 23, 1989

BLOOD PRESSURE REDUCTION AND CORONARY HEART DISEASE RISK FACTOR MANAGEMENT: A CONJOINT APPROACH

1
Importance of Coronary Heart Disease Risk Factors in the Management of Hypertension: An Overview
Norman M. Kaplan

5
Effects of Antihypertensive Agents on Serum Lipids and Lipoproteins
Alan Chait

8
Effects of Alpha- and Beta-Adrenergic Antagonists on Plasma Apolipoproteins and Forearm Blood Flow in Patients with Mild Hypertension
Frank M. Sacks, Mark A. Creager, Shelley J. Gallagher, Joseph Loscalzo, Victor J. Dzau

14
Effect of Prazosin Treatment on Carbohydrate and Lipoprotein Metabolism in Patients with Hypertension
Arthur L.M. Swislocki, Brian B. Hoffman, Wayne H.-H. Sheu, Y.-D. Ida Chen, Gerald M. Reaven

19
Effects of Prazosin on Hemodynamics, Hemostasis, and Serum Lipid and Lipoprotein Levels in Normal and Hypercholesterolemic Monkeys
William H. Karge III, Edward J. Weiner, Mark C. Kowala, Robert M. Graham, Robert J. Nicolosi

24
Initial Antihypertensive Drug Therapy—A Comparison of Alpha-Blocker (Prazosin) and Diuretic (Hydrochlorothiazide): Brief Summary of a Randomized, Controlled Trial
Rose Stamler, Jeremiah Stamler, Flora C. Gosch, David M. Berkson, Alan R. Dyer, Patricia Hershinow

26
Effect of Alpha- and Selective Beta-Blockade for Hypertension Control on Plasma Lipoproteins, Apoproteins, Lipoprotein Subclasses, and Postprandial Lipemia
H. Robert Superko, Peter D. Wood, Ronald M. Krauss

32
Selective Alpha-Blockade versus Angiotensin-Converting Enzyme Inhibition as Initial Antihypertensive Therapy: Effects on Circulating Lipoproteins
Marwan A. Takiyyuddin, Justine H. Cervenka, Thai Dinh, Joseph L. Witztum, Daniel T. O'Connor

36
Comparative Effects of Prazosin and Propranolol on Blood Lipid Profiles in Hypertensive, Hypercholesterolemic Patients: Preliminary Results
Arthur S. Leon, Donald B. Hunninghake, John Belcher, Jack Stoulil

41
Effects of Prazosin and Labetalol on Blood Pressure Control and Blood Lipid Levels in Patients with Mild-to-Moderate Essential Hypertension
John P. Farry, Stephen J. Fischl, Michael J. Tighe, Mark J. Krell

45
Evaluation of the Efficacy of Prazosin versus Propranolol as Initial Antihypertensive Therapy
Michael H. Alderman

50
Interaction of Diabetes with Hypertension and Lipids—Patients at High Risk: An Overview
Manuel Tzagournis

55
Forearm and Finger Hemodynamics, Blood Pressure Control, and Lipid Changes in Diabetic Hypertensive Patients Treated with Atenolol and Prazosin: A Brief Report
Chi Ming Kwan, Alexander M.M. Shepherd, John Johnson, W. Fred Taylor, Bruce A. Brockway

59
Effects of Prazosin on Blood Pressure and Diabetic Control in Patients with Type II Diabetes Mellitus and Mild Essential Hypertension
Philip Levy

63
Left Ventricular Hypertrophy in Hypertensive Patients
Frans H.H. Leenen

66
Regression of Left Ventricular Hypertrophy in Hypertension: Effects of Prazosin Therapy
C. Venkata S. Ram, Domingo Gonzalez, Padmakar Kulkarni, Prabha Sunderajan, James Corbett, Anne Taylor, Nannepaga Y. Zachariah, Norman M. Kaplan

70
Management of Hypertensive Patients with Special Problems
Michael A. Weber

74
Prazosin versus Hydrochlorothiazide as Initial Antihypertensive Therapy in Black versus White Patients
David M. Batey, Mark J. Nicolich, Vera I. Lasser, Susan S. Jeffrey, Norman L. Lasser

79
Assessment of the Effects of Alpha- and Beta-Blockade in Hypertensive Patients Who Smoke Cigarettes
Samuel J. Mann, Thomas G. Pickering, Michael H. Alderman, John H. Laragh

82
The Long-Term Antihypertensive Effects of Prazosin and Atenolol
Harold D. Itskovitz, Kathy Krug, Salim Khoury, Joseph L. Mollura

87
Mild Hypertension in the Elderly: A Comparison of Prazosin and Enalapril
Deanna G. Cheung, Carol A. Hoffman, Stephanie T. Ricci, Michael A. Weber

91
Prazosin in Hypertensive Patients with Chronic Bronchitis and Asthma: A Brief Report
Sanford Chodosh, Janice Tuck, David Pizzuto

94
Lowering Blood Pressure in Patients without Affecting Quality of Life
Myron H. Weinberger

98
Effects of Antihypertensive Therapy on Blood Pressure Control, Cognition, and Reactivity: A Placebo-Controlled Comparison of Prazosin, Propranolol, and Hydrochlorothiazide
Norman L. Lasser, John Nash, Vera I. Lasser, Sheila J. Hamill, David M. Batey

104
Effect of Atenolol or Prazosin on Maximal Exercise Performance in Hypertensive Joggers
Paul D. Thompson, Eileen M. Cullinane, Anne M. Nugent, Mina A. Sady, Stanley P. Sady

110
Comparative Effects of Prazosin and Hydrochlorothiazide on Sexual Function in Hypertensive Men
Martin B. Scharf, David W. Mayleben

113
Treatment Strategies: An Evaluation of Antihypertensive Therapy
Victor J. Dzau

VOLUME 86 (4A) April 17, 1989

ISRADIPINE IN HYPERTENSION

1
Introduction
Lennart Hansson, Alberto Zanchetti, John H. Laragh

2
First-Line and Combination Treatment for Hypertension
John L. Reid

6
Calcium Antagonists in Hypertension
Arie J. Man in't Veld

15
Long-Term Effects of Isradipine on Blood Pressure and Renal Function
Ole Lederballe Pedersen, Lars R. Krusell, Inger Sihm, Lennard Tang Jespersen, Klaus Thomsen

19
Hemodynamic Response, Safety, and Efficacy of Isradipine in the Treatment of Essential Hypertension
Björn Dahlöf

27
Antiatherogenic Properties of Calcium Antagonists: State of the Art
David B. Weinstein, John G. Heider

33
Detection and Monitoring of Asymptomatic Atherosclerosis in Clinical Trials
M. Gene Bond, Sharon K. Wilmoth, Gina L. Enevold, Harriet L. Strickland

37
Multicenter Isradipine Diuretic Atherosclerosis Study (MIDAS): Design Features
The Midas Research Group, Curt D. Furberg, Robert P. Byington, Nemat A. Borhani

40
Effects of Isradipine and Other Calcium Antagonists on Arteriovenous-Shunt Flow in Anesthetized Rabbits and Cats
Robert P. Hof

50
Antivasoconstrictor Effects of Isradipine: A Quantitative Approach in Anesthetized Rats and Conscious Rabbits
Robert P. Hof, Urs T. Rüegg

57
Differential Effects of Isradipine and Atenolol on Peripheral Hemodynamics and Arterial Compliance
Lennard Tang Jespersen, Lars R. Krusell, Inger Sihm, Ole Lederballe Pedersen

60
Renal and Hemodynamic Effects of Isradipine in Essential Hypertension
Bengt Persson, Ove K. Andersson, Marion Wysocki, Thomas Hedner, Mattias Aurell

65
Cardiovascular and Renal Effects of Single Administration of Three Different Doses of Isradipine in Hypertensive Patients: Dose-Response Curves of the Different Effects
Lucia Rupoli, Maria Fruscio, Roberto Gradnik, Roberto Chianca, Gastone Leonetti, Alberto Zanchetti

67
Antitrophic Properties of Antihypertensive Drugs May Depend Solely on Their Blood Pressure-Lowering Capability: A Comparative Study of Isradipine, Hydralazine, and Metoprolol
Helle Nielsen, Hanne R.L. Christensen, Kent L. Christensen, Ulrik Baandrup, Lennard T. Jespersen

70
Safety and Efficacy of Isradipine, Alone and in Combination, in the Treatment of Angina Pectoris
Peter C. Rüegg, David J. Nelson
